Twinkly lights are easy to configure via Bluetooth® and Wi-Fi and can be voice-controlled with voice assistants Amazon Alexa, Google Assistant, and Apple HomeKit. Once you've set up your lights, let the Twinkly App do the rest: it scans and maps each individual bulb, transforming your lights into a personalizable decorative display. You then get to apply virtually endless default effects and animations or create your own personalized ones.

For even more impressive decorations, combine your lights with Twinkly Music (sold separately), a USB device with a built-in microphone that interprets ambient sounds and music in your space and applies matching colors and effects to your lights.

## FEATURES

Decorate for the holidays like never before with Twinkly Light Tree, a smart LED Christmas tree for your walls and doors and that is easy to assemble thanks to adjustable straps that can be attached to walls or around the corners of doors

Enjoy setup in a matter of seconds via Bluetooth® and Wi-Fi, manage your lights with the free Twinkly app (iOS and Android), group multiple devices, set automated playlists, switch your lights on and off, apply timers, dim them and adjust their brightness, and much more

Unleash your creativity with endless preset effects and animations, create your own personalized ones using the FX Wizard on the Twinkly App, or virtually draw effects on your lights with your finger. Use your imagination and any shade, gradient, hue or tint of 16 million colors and white light to create the ultimate decorative lighting

Add your Christmas tree wall and door decoration to your holiday decor and enjoy your most memorable holidays. Perfect for small apartments, offices and any space where you want to add extra cheer

Watch your lights dance to Twinkly Music (sold separately), a smart microphone that interprets ambient sounds and music in your space and applies synchronized colors and effects in real time

Voice activate your lights via Amazon Alexa, Google Assistant, and Apple HomeKit voice assistants, and integration with Razer Chroma™ RGB and OMEN Light Studio for the ultimate light and gaming experience
