Small , dirscreet and great device

This sensor is a great little piece . Synching with smarthings hub was seamless. The sensor itself works great picking up motion well and switching on lamps as part of a routine. In all it is a great little addition to a smart home

Recommends this product ✓ Yes

Does the job great, nice size

Connected straight away to my existing smart network and is now being used as a sensor to detect if my toddler gets out of bed and if she does switches on the smart lights to illuminate her path works a treat!

Recommends this product ✓ Yes

Good upgrade

This was an upgrade from the version 2 and it is much better. Better build quality and better battery.

Recommends this product ✓ Yes

Set up easy, when movement is detected it sets off my Alexa to play music so we know someone is about. Have also set it to increase temperature if temperature drops below 15 degrees.

Recommends this product ✓ Yes

A product card for the Samsung SmartThings Motion Sensor. The card has a white background with rounded corners and a thin grey border. At the top, the text "Motion Sensor" is centered. Below this, there is a large, stylized orange logo consisting of four rounded shapes that resemble the letters "B", "O", "B", and "E". Underneath the logo, the text "we love smart" is written in a light orange, lowercase font. At the bottom of the card, the rating "4.8 (15)" is displayed in a bold, black font.
