

WiFi Ceiling Light with Google Nest Mini and Amazon Echo Dot Bracket

In stock

- Bracket for smart home speaker
- RGB Backlight
- Easy installation and assembly

The unique and space saving Wi-Fi Led Ceiling Light with Docking combines the most popular smart speakers with Tuya powered smart lighting. Ideal for living rooms, bedrooms, kitchens, or hallways.

The lamp has a diameter of 50 centimeters and includes several black and white brackets, in which a Google Nest Mini 2nd Gen or an Echo Dot 3rd/4th Gen can be installed. In addition, the lamp includes an integrated smart speaker power supply. After installation, the luminaire can be controlled via Google Assistant or Amazon Alexa when the smart speaker app is connected to the Idinio app.

The right atmosphere can be created by easily adjusting the different colors of the lamp. The front light can be set from extra warm to cold white light and is dimmable. The backlight includes different RGB colors and can also be dimmed. Furthermore, the luminaire offers additional functions, namely:

- A music function where the light reacts to the music that is being played.
- Creating your own scenes or using other scenes for specific applications such as reading or watching TV
- Setting a timer or schedule when the ceiling light is supposed to turn on or off.
- Wake up with the lamp due to the integrated bio rhythm function that simulates the rising sun.

The ceiling light is easy to install and assemble and no smart hub is necessary, just your Wi-Fi router.

Combine this lamp with the other smart home products for the ultimate smart home experience.

Download the Idinio app in the Google Play Store or the Apple App store.
